A Note from Mark Baldwin about the (Sacramento) Davis Autocross

Note from 2011 Event:

I will be the event marshall and run the drivers meeting. I have a deputy working the gate to check that participants have paid and signed waiver prior to entering the track area. I have three independent tech inspectors already volunteering (Peter, Jacob, and Nick from Volvo Independent).

Will need volunteers at sign in table to collect money, have waivers signed, and stamp hands, etc.
Will need timers also.

I am splitting the drivers into two groups. The first group will be driving while the second group works the track (flaggers, and cone pick-up). This will switch when the first group finishes their runs.

Note from 2012 Event:

Will be needing volunteers on the friday evening before the autoX (March 27) to set up the course, and finalize the set-up. I will also need help after the event to wrap it up so we can get the autoX rehab party going at my place. I will have a dedicated car wash area with supplies and my lift/shop will be open for any incidents that ocured during the day. Do we want to take up a collection after the autoX for the BBQ, or I can front it, and put out a contribution jar. You are responsible for your own "sodas". Just drop me your info if you plan on volunteering.
