

Sacramento Chapter

Volvo Club of America

The Sacramento Chapter of VCOA has re-formed with new officers and is scheduling local events for 2008. Learn more about Volvos and related topics, meet other local people interested in Volvos, and just have fun. Our events are open to all people interested in Volvos. Please join us at our second event:

Sacramento Chapter Towe Auto Museum Tour

We will be upfront about this: there are no Volvos on display at the Museum, other than the ones that members will be driving to this event. But if you want to shore up your knowledge of automotive history and learn about the technological ancestors of your Volvo, this is the event for you. The Museum is biased towards early Ford products (Model T & Model A), but since Ford owns Volvo, I guess that's the tie-in, if you need one. Seriously, if you want to learn about automotive history, this is the best place in the Sacramento Valley to do so.

We will have a reserved parking area outside the museum for our members, where "Volvo" will definitely be spoken. After the museum tour, which should take about 90 min., attendees can visit the Museum's gift shop and/or gather outside in our reserved area and meet fellow Volvo enthusiasts. Around Noon, we will adjourn to a nearby restaurant for lunch. Lunch is optional and is a separate cost from the museum visit-- restaurant choice will be by popular vote after the tour, please bring your location suggestions, we'll bring ours.

We will be receiving a special discounted admission rate, the maximum charge is \$5/person. A local VCOA event, cheap (cheaper than going to the movies!), and it won't take a whole day. What more could you ask for?

Date: Saturday, July 19, 2008
Time: 10:00 a.m. to Noon
Location: Towe Auto Museum

To be notified of future chapter events or to learn more about how you can help with club activities, please drop us a note via e-mail or give us a call:
